What we want to achieve ...

- **At the core** of the **project** is the **Hybrid Warfare Reference Curriculum (HWRC)**, which will **form the basis** for the **curriculum** of **military, police** and **civilian** students.
- The **intention** is to draw **experts** from **various nations** across the **EU**, as well as from other **partner institutions** providing **teaching** and **research activities** in Hybrid Warfare.

What we intend to ...

- The **intention** behind the **development** of the **project** is to provide **common lecture material** for **civilian, police** and **military institutions** of **higher education**.
- **Students** will **gain**:
 - an **appreciation** of how **hybrid warfare impacts** today's **modern military forces** in **terms** of **doctrine, force structure, armaments, operations, C2** and **training**;
 - an **insight** into **hybrid warfare, ranging** from **cyberattacks** on **critical networks** to **public health** and **national security**, the **malicious use** of **life sciences** and **AI**;

What we intend to ...

- an **understanding** of how **hybrid warfare acts destabilise communities and society**, from **alternative news narratives** to **community violence / criminality**;
- an **approach** that **benefits** from **risk analysis, crisis management** case studies, and **simulation exercises** to **reinforce** the **contextual** and **situational awareness**.

What we implement

- To **achieve** the **aims** of the **Hybrid Warfare Project**, the **partners develop 3 project results** such as:
 - 1. Hybrid Warfare Reference Curriculum**
 - 2. Teaching methodology** for the **education, training** and **simulation** of **Hybrid Warfare**
 - 3. Hybrid Warfare Massive Open Online Course / MOOC**

Funded by
the European Union

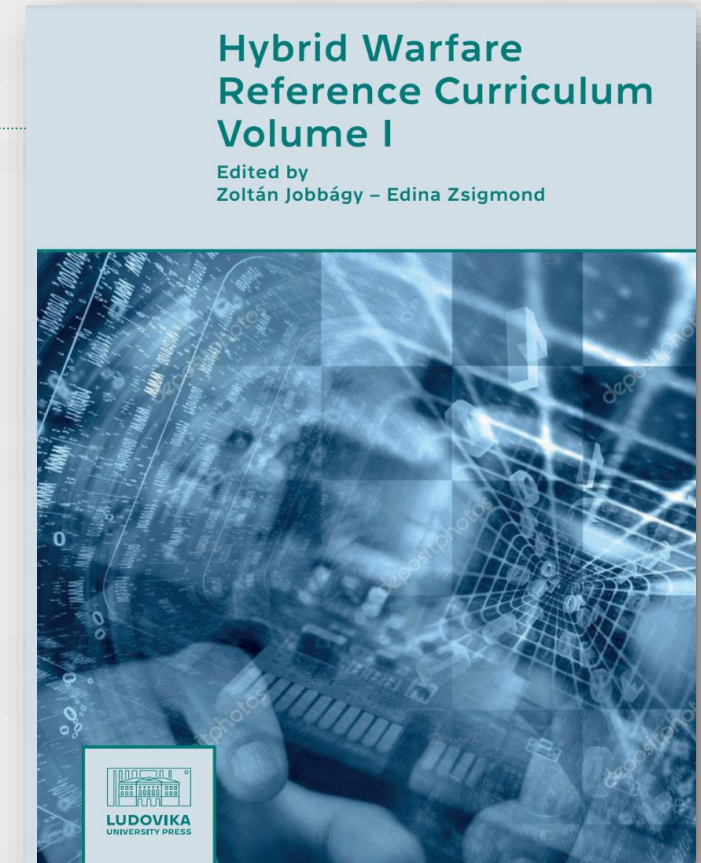

Volumes

Three volumes on
Hybrid Warfare Reference Curriculum

30 chapters on Hybrid warfare related topics

One methodology and simulation handbook

Publisher: Ludovika University Press

Learning, Teaching, Training Event #2

Funded by
the European Union

Beta testing of the complete course design,
including the MOOC and simulation exercises

Liptovský Mikuláš, Slovakia

28/01/2024 – 03/02/2024

Participants

60 students

15 teachers

Funded by
the European Union

MOOC

Chapters of the volumes

Online course

26 chapters of the volumes
will be included in the MOOC

137 participants
(update May 14th, 2024)

<https://mooc.uni-nke.hu/course/view.php?id=7>

 Description of the course	 Compulsory Lectures	 Global Megatrends	 Ideologies and Motivations	 Operational Environment
 Cyber Security	 Strategies to Counter Hybrid Threats	 Risk Analysis	 Elective Seminars	 Designing Adversary Hybrid COAs
 The Role of the European Centre of Excellence for Countering Hybrid ...	 Role of Proxies	 Geopolitical Context, Ideologies and Motivations	 Elective Lectures	 Hybrid warfare: Case studies
 Social Media: An Instrument of Public Diplomacy and a Weapon of ...	 The Evolution of Hybrid Warfare			

Funded by
the European Union

Conclusion ...

Thank you for your attention!
