

## DIGITAL MATHEMATICS APPLIED IN DEFENCE AND SECURITY EDUCATION

Transnational project meeting "*Workshop on Mathematics-based scenarios*"  
16 - 18 April 2024, Bucharest, Romania

PROJECT NO 2023-1-BG01-KA220-HED-000156664

# DIGITAL MATHEMATICS APPLIED IN DEFENCE AND SECURITY EDUCATION

PROJECT NO 2023-1-BG01-KA220-HED-000156664

# Aims of transnational project meeting:

1. Survey among students and teachers for difficulties in Math science.
2. Definition of the most needed Math concepts for Security and Defence education.

# Aims of transnational project meeting:

3. Analyse typical mathematical branches and study cases.
4. Elaborate learning/teaching applied mathematics-based scenarios.

# Way Ahead:

---

1. To elaborate learning/teaching applied mathematics-based scenarios.

## **SURVEY FOR STUDENTS/TEACHERS**

We will be very grateful if you share the link with students.

<https://forms.gle/WF4KpakxM7zMgcdh6>

# Way Ahead:

---

**3<sup>rd</sup> Edition. International Symposium & International Student  
Workshop on Interdisciplinary Mathematics in the CiTi areas**

**<https://isimconference.eu/>**

**26-27.06.2024 (25.06.2024 arrival, 28.06.2024 departure)**

# Way Ahead:

3. To conduct *LTTA1 Short-term joint staff training for teachers - Application of digital tools for Math courses – 1<sup>st</sup> Edition* (Monday 29<sup>th</sup> of July till Saturday 3<sup>rd</sup> of August.) in Athens, Greece.
