- **During our stay in Poland we participated in the International Air Force Semester.**

On a typical day we had to:

- **Follow the rules and the program of the academy.**
- **Participate in morning lessons from 8:00 until 15:25.**
- **Participate in the lesson of physical education.**
- **Participate in formal ceremonies and trips organized by the academy.**

Benefits

- **We experienced a completely different educational system compared to our academy's system.**
- **We made a lot of new friends from different countries, with whom we might work together in the future.**
- **Our cooperation skills got better, having to live and study with cadets from different countries.**
- **We exchanged opinions and experiences with the other cadets, and we learnt their traditions and customs.**
- **We improved our English language skills.**

Recommendations

- **We definitely recommend to organize more exchange programs, since through them the participating cadets have the opportunity to build personal relationships and friendships which will in time facilitate cooperation among European countries.**
- **We are of the opinion that more European countries should join this program.**
- **We believe that the cadets having taken part in this exchange should have the opportunity to reunite before finishing their academies.**
