Welcome!

This platform was created in support of the European initiative for the exchange of young officers inspired by Erasmus (or in other words: "Military Erasmus" or EMILYO or the "Initiative"). It aims to enable European Union initial military education and training institutions (Basic Officer Education Institutions - BOEI), to explore possibilities for quantitative and qualitative exchanges of knowledge and know-how through mobility of their students and personnel.

In this toolbox, several functionalities will help you to explore European Union military officers' basic education and training systems:

- Contacts and information on the European Union officers' basic education and training institutes;
- A search engine for identifying possible partners in exchanges, on the basis of criteria selected among the different levers of mobility;
- A browser of updated announcements of mobility opportunities shared by the European

Handbook 2022 Financing the Initiative

Colonel Paulo Machado

Financing the Initiative

Participation in initiatives is not regulated through a fully standardized mechanism in terms of funding. However, it will be possible to take as an example some sources of funding that could be used to adequately finance participation, increasing activities between institutions and contributing to the creation of an increasingly common training. Funding sources may be internal to the institution, or external, through the support of entities outside the institution.

Sources of Financing
Various Funding Possibilities to support the International Activities

Most used Funding Sources of Financing

- 01 ERASMUS Program
- 02 Institutions Own Funds
- 03 Funds from ESDC
- 04 Scholarships

GOALS

- 01 Understand the various sources of funding that may support participation in the different activities of the ESDC.
- 02 Recognize possibilities, advantages and disadvantages in using different sources of financing.
- 03 Analyze the most appropriate funding sources for participation in the various activities.
- 04 Assess success factors and lessons learned from successful engagements funded by innovative schemes.
- 05 Share knowledge about possibilities for participation and innovative funding schemes that are relevant to increasing participation.
- 06 Share practical experiences with IS members and support others in overcoming different barriers.
- 07 Publicize other forms of funding for participation in activities.
