

Research & Development

LoD – 14

25 February – Larnaca – Cyprus

Key Meeting Points

- Mission statement :
 - Scientific Research is an enabler for academic education
 - LoD 14 aims to create a supporting network of academic experts from the different interested military academies, gathering during the IG meetings or during workshops and conferences (to be organised)
- Discussion on possible way ahead
- Existing conferences will be more promoted: e.g. « Language, Security and Technology » Conference at MUT

Key Meeting Points

- Creation of a Scientific Committee: Pool of experts
- Publication of common proceedings for the different existing conferences (Naval Academy Portugal, Military Technical Academy Romania, Military University of Technology Poland, Airforce Academy Romania,...)
- Presentation of Project « Prometheus » for possible scientific collaboration
- Presentation of new EDF 2025 project on integration of simulation platforms

Way Ahead

- Writing of the mission statement
- Call to present scientific project proposals in LoD 14
- Creation of a scientific committee
- Bachelor and Master thesis topics for exchange
- European S&T Conference for Military Academies
- Evaluate opportunity of European Military journal of Technology
- LoD 14 co-chair: Ioannis Templalexis
