

**Colonel Harald GELL, Assoc. Prof.  
The Chairman of the Implementation Group**

**LETTER OF NOMINATION**

for the chairperson of the Line of Development 9 – Future Projects “in the framework of the Implementation Group of the European Initiative for the Exchange of Young Officers inspired by Erasmus+”

Dear Chairman of the Implementation Group (IG),

At first, let me express my appreciation of the activities and the work of the European Initiative for the Exchange of Young Officers (EMILYO). The EMILYO initiative is an extremely valuable platform for exchanging ideas and creating projects for the benefit of cadets from military universities. The contribution and commitment of academic teachers and personnel render this plausible.

Thus, I have a great pleasure to nominate a candidate from the Military University of Technology (WAT) for the vacant position of Chair for LoD 9 Future Projects. Our candidate is Agata Jagiello-Tondera, PhD, Coordinator for International Relations at the Foreign Languages Centre, who has been working at the Military University of Technology since 2000. She is an academic teacher of English and Polish as a foreign language and her research area encompasses security matters and interoperability, including linguistic interoperability.

Mrs. Agata Jagiello-Tondera is the author of the *Language-Security-Technology* project, a series of international scientific conferences for cadets and lecturers. As the scientific tutor of the Linguistic Student Association at WAT, she has organised seminars and webinars with international experts dealing with security.

I am deeply convinced that the commitment and creativity of Mrs. Agata Jagiello-Tondera will be a valuable contribution to the current and future projects of the EMILYO initiative. The Military University of Technology will support financially her duties as the Chairperson of the LoD 9 to participate in IG meetings.

Yours Sincerely,

**Rector-Commandant  
Military University of Technology**

**Brig. Gen. Prof. Przemysław Wachulak DSc, PhD, Eng.**
